

DELLTechnologies

Unveiling AI-level productivity

Top reasons to upgrade your Dell PC

- 1** Built-in AI processor
- 2** AI-powered efficiency
- 3** Smarter collaboration
- 4** Work confidently from anywhere

1 Harness the power of AI

with the world's most secure¹, and manageable² commercial PCs with a built-in AI processor.

Maximize conversations, minimize power consumption

Experience up to 38% less power usage for AI-enhanced collaboration on Zoom calls.³

Power through your data analysis

Achieve 14% faster data analysis and report generation using MATLAB- a powerful programming and numeric computing platform widely utilized by engineers and scientists for data analysis, algorithm development, and model creation.⁴

Bring your creative vision to life

Turn your light bulb moments into reality with AI video editing performance 2.3x faster with Adobe Premiere Pro Beta.⁵

Enable Comprehensive Security

Combine the power of Dell commercial PCs and Intel core silicon with CrowdStrike's industry-leading XDR platform for a coordinated defense against the [stealthiest attacks.](#)

Powered by Intel® Core™
Ultra Processors for AI

2 Do everything like never before with Copilot+ PCs

Retrace your steps with Recall* and find what you need fast

Effortlessly search files, images, applications, or websites you recently accessed whether today, yesterday, or weeks ago. Resume your tasks seamlessly, with everything secured on your device.

Break the language barrier with Live Captions

Instantly translate live or pre-recorded audio from 44 languages to English with automatic language detection. Communicate back and forth on video calls or live conversations, even when offline.

Make your photos naturally crisp

Elevate your photos effortlessly with Luminar Neo's AI tools by deblurring images in seconds with SuperSharp AI and upscaling them by up to 6X with Upscale AI, for pixel-perfect results.

Experience an inclusive digital experience

Enhance your digital interactions with Cephable using advanced input methods like head movement, facial expressions, and voice commands to control how you use everyday applications.

Powered by
Snapdragon® X Elite and
Snapdragon X Plus

3 Collaborate smarter, not harder

with AI-driven conferencing with intelligent Dell displays and devices

Convenient controls at your fingertips

Ease into your meetings with this exclusive feature from Dell – the collaboration touchpad⁶ allows easy access to Zoom and Microsoft Teams⁷ features such as screen sharing, chat, camera, and microphone settings.

Intelligent ecosystem for your workspace

Experience advanced AI audio, video, and conferencing monitors with our most intelligent portfolio of headsets⁸ and webcams⁹ for more accurate environmental noise reduction and automatic focus when video conferencing.

Hear and be heard

Intelligent Audio from Dell Optimizer and supported by Intel[®] technology, senses your surroundings and enhances the conferencing experience by reducing background noise for you and all call participants.

AI-eye tracking and auto-framing

Have more engaging, efficient meetings with Windows Studio Effects. Stay centered with video auto-framing and maintain eye contact even if you're reading from your notes.

4 Work confidently from anywhere

with the foundational security and privacy of Dell, Intel®, and Windows

Protect your fleet with built-on security

Stay protected from evolving threats with the built-in defenses of the world's most secure commercial AI PCs¹. Unique hardware telemetry integrations with AI-enabled cybersecurity software help combat advanced threats and improve long-term cyber resilience. Proactively detect and block attacks across the endpoints, networks, and cloud environments. All foundational to protecting your data.

Maintain workspace privacy

Increase insights and efficiency while keeping business and personal data protected. Your content and search data will be protected within your firewalls and not be saved or used to train AI models.¹⁰

70%

attack surface reduction vs older PCs, according to Intel® and IOActive¹¹

3.1x

fewer firmware attacks with Windows 11¹²

Fast-track your AI journey

with Dell APEX PC-as-a-Service

Our AI-ready devices and APEX solutions can help you:

Save up to 30%
on support costs¹³

Cut up to 50%
help desk effort¹³

¹Based on Dell internal analysis, October 2024. Applicable to PCs on Intel processors. Not all features available with all PCs. Additional purchase required for some features. Validated by Principled Technologist, A comparison of security features, April 2024.
²Based on Dell internal analysis, January 2024. Most manageable commercial PCs when comparing the systems management capabilities of Dell Update Processes, Dell Manageability Solution capabilities and integrations with 3rd Party Management Solutions, with competitor update processes, systems, 3rd Party Management Solutions - Microsoft Intune, Workspace ONE, are separate purchases.
³Up to 38% less power when running AI-enhanced collaboration features like Zoom. Specific to Zoom. Based on Intel testing and external claims. Results may vary.
⁴Based on Intel testing, January 2024. Compares performance of 9450 using MTL processor to 9440 using RPL processor. Results may vary.
⁵Based on third party analysis from Intel testing and external claims. Specific to Adobe Premier Pro Beta. Results may vary.
⁶Collaboration Touchpad feature availability and functionality may vary by model. For more details visit: <https://www.delltechnologies.com/asset/en-us/solutions/business-solutions/technical-support/dell-optimizer-features-availability-matrix.pdf>. External.
⁷Microsoft Teams compatibility with the Collaboration Touchpad requires download of Dell Optimizer version 4.1.3 and Microsoft Teams for Work or School version.
⁸Based on Dell internal analysis, September 2022. Applicable to PCs on Intel processors. Not all features available with all PCs. Additional purchase required for some features.
⁹Class refers to mainstream webcam up to 2K resolution at a price range between USD100-150. Based on internal analysis of external personal conferencing webcams, April 2022.
¹⁰Copilot with commercial data protection is turned on by default for eligible M365 users. It is available to any organization using Microsoft Entra ID at no additional cost.
¹¹Based on O'Active's Intel vPro 10th Gen Attack Surface Study published March 2023 (commissioned by Intel), which evaluates Intel vPro devices powered by 10th Gen Intel Core processors against four-year-old Intel-based PCs on Windows OS. Details at www.intel.com/performance-vpro [Intel.com]. Results may vary.
¹²Reduction in 3.1x in firmware attacks based on SMB Windows 11 Survey Report, TechAnalyst, February 2022. Windows 11 results are in comparison with Windows 10 devices.
¹³Based on a Forrester Total Economic Impact™ Study commissioned by Dell "The Total Economic Impact™ Of Dell's PC As A Service" November 2022. Results derived from customer interviews and survey data.
¹⁴Recall is coming soon through a post-launch Windows Update. Optimized for select languages (English, Chinese (simplified), French, German, Japanese, and Spanish). Content-based and storage limitations apply. Learn more aka.ms/laba_mj3coo1stpsvpc_laba_mj
